Canadian Intellectual Property Office

Canada

Trade-marks Journal
Vol. 63 No. 3240

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

GOODS

(1) Machines and machine tools, namely, centrifugal grinding machines, rotary grinding machines, grinding machines for grinding organic and inorganic matters, all for chemical processing, grinding tools for grinding machines, crushing machines for industrial purposes for chemical processing, extracting machines for chemical processing, granulating machines for chemical processing; machines, namely, impact mills, pulverizers, mixers, blenders for chemical processing and parts therefor; machines for separating target materials from mixtures of materials for chemical processing; machines for separating recyclable materials; machine tools for removing waste material; waste crushing machines; cleaning machines for oil and gas industrial machines; components for machines and machine tools, namely, sand, chemical and reverse osmosis filters; biodiesel-generation machines, namely, mixing equipment, pumps and heaters; blending machines for chemical processing; motors and engines used in industrial applications, machine coupling and transmission components except for land vehicles; crushing and grinding machines for use with biogas plant; machinery for crushing, grinding and compacting waste; water separators; oil separators.

(2) Apparatus for steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, machines for use in the purification, separation and sterilization of liquids and gases used in the biotechnology, pharmaceutical, medical, biopharmaceutical, energy, food and beverage industries; gas and liquid distillation units not for scientific purposes; electro-chemical flue gas scrubbing machines; emission control systems comprised primarily of indirect contact heat exchangers and ozone-based control devices using gas and vapor condensing to control and treat emissions; equipment for treating groundwater and soil comprising distribution lines, distribution manifolds, drop tubes, well seals and blowers; filters for air and gas conditioners; fluid separation apparatus for separation of gas from liquid in a chemical and oil refinery; gas condensers, other than parts of machines; gas recycling system comprised primarily of the following pieces of equipment, namely, pressure swing adsorption equipment, temperature swing adsorption equipment, perm selective membrane equipment, solvent extraction equipment, pervaporation equipment and solid adsorption equipment, for the recovery, purification and return of gases in industrial applications; industrial-water purifying apparatus; liquid flow regulating apparatus, namely, hydraulic compensators; steam heating apparatus for industrial purposes; thickening and dewatering machines for use in treatment of liquids including water, industrial effluent and sewage; water purification and filtration units; water treatment apparatus, namely, clarification and thickening machines for use in treatment of liquids in the nature of water, waste water and industrial water; fluid separation apparatus for separating chemicals, oil and bioaccumulative substances from water; wastewater treatment plants for sewage and water from processing plants, namely, biological contactor for treatment of sewage and drainage water, sewage purification and treatment plants, clarification, thickening and dewatering machines, sustainable onsite water recycling and wastewater treatment machines; waste water purification installations and tanks; waste water treatment tanks; fluid separation units for separating chemicals , oil and bioaccumulative substances from water; gas purification machines for the purification of flue gas from boilers and engines; sustainable onsite water recycling and wastewater treatment machines, incinerators, alternative energy generation power plants, waste processing machines using heat and chemical breakdown processes, machines for converting environmentally hazardous waste and low heating value materials, machines for converting alternative fuels into combustible fuel, combustion chamber designed to convert flammable liquids and hazardous waste into combustible fuel, machines for optimizing the combustion properties of low heating value materials for waste treatment and conversion plants, sorting, incineration and disposal of waste; incinerators for waste; incinerators and combustion chambers for the conversion of the flammable liquids and hazardous waste into energy; biogas power plants and power plants for conversion of biomass into energy; gas scrubbers; wet scrubbers for flue gas purification and for purification of other gas streams

SERVICES

(1) Building construction, repair, installation

(2) Scientific and technological services, namely, research and design in the field of environmental technology and processing plants and machines for the treatment and utilization of chemical waste and industrial byproducts; industrial analysis in the field of environmental technology and processing plants and machines for the treatment and utilization of chemical waste and industrial byproducts and related scientific research services, design and development of computer hardware and software

Index Headings
RELIGIONPEACE R P

Image Description (Vienna)
- Mathematical signs
- Symbol of infinity
- Letters presenting a special form of writing
- Letters linked to a figurative element -- Note: Letters representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object are classified in division 27.3.

Trademark Description
Verbal elements of the mark are English words 'religion' and 'peace' in their common meaning. Figurative elements of the mark. Under the words 'Religion' and 'Peace' (the word 'Peace' is situated below the word 'Religion' and it begins opposite a middle of the word 'Religion', letters 'c' and 'e' of the word 'Peace' are placed to the right of an imaginary vertical line where the word ' religion' ends) there is a symbol of infinity invented by English mathematician J. Wallis. The upper edge of the left part of this symbol has a modified form - the top of the left part of the symbol is connected with the bottom elements of the capital letter 'R' of the word 'Religion', whereas a right bottom element in the form of a 'backslash' is stretched to the spot of intersection at the center of the symbol. The bottom edge of the capital letter 'P' of the word 'Peace' ends in a way of touching to the elongated right bottom element of the capital letter 'R' of the word 'Religion'. The verbal and figurative elements of the mark symbolize in their unity religious outlook, the idea of peace in the world, the interconnection between the concepts of 'religion' and 'peace'.

Image Description (Vienna)
- Mathematical signs
- Symbol of infinity
- Letters presenting a special form of writing
- Letters linked to a figurative element -- Note: Letters representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object are classified in division 27.3.
- Squares
- Other irregular parallelograms, trapezia and quadrilaterals, quadrilaterals containing one or more rounded corners
- More than two quadrilaterals, inside one another
- Quadrilaterals containing one or more letters

Trademark Description

Verbal elements of the mark: 'R' - capital letter of English alphabet which in this case is abbreviation of the word 'religion' in its common meaning; 'P' - capital letter of English alphabet which in this case is abbreviation of the word 'peace' in its common meaning. Figurative elements of the mark. Under the letters 'R' and 'P' (the 'P' letter is situated a little bit below and to the right of the 'R' letter) there is a symbol of infinity invented by English mathematician J. Wallis. The upper edge of the left part of this symbol has a modified form - the top of the left part of the symbol is connected with the bottom elements of the capital letter 'R', whereas a right bottom element in the form of a 'backslash' is stretched to the spot of intersection at the center of the symbol. The bottom edge of the capital letter 'P' is ended in a way of touching to the elongated right bottom element of the capital letter 'R'. Being a background for the abovementioned figurative elements there is a square with rounded corners (except of upper-left corner which is not rounded). Other figurative elements are stressed with a white framing around all their joint perimeter and placed in front of the square, whereas left and right edges of the symbol of infinity extend beyond the square. The verbal and figurative elements of the mark symbolize in their unity religious outlook, the idea of peace in the world, the interconnection between the concepts of 'religion' and 'peace'.
